

CAHIER DES CHARGES / PORTFOLIO DOCUMENTATION

CAmatic Piscine

Desktop operations system

A Windows desktop system for swimming pool and facility operations: subscribers, associations, access cards, memberships, payments, time slots, devices and reports.

1. Contexte du projet

The application is an operational tool used by staff who need fast data entry and reliable daily management. It was built in a professional team context around a legacy desktop stack and client-specific workflows.

2. Objectifs

- Subscriber management
- Membership lifecycle
- Card/access control
- Payments and reporting
- Configuration of clubs, devices and time slots

3. Acteurs

- Administrator
- Reception/operations staff
- Accounting user
- Access/device manager

4. Interfaces et fonctions principales

Authentication	Login screen for username and password before staff can access the management modules.
Home/Dashboard	Entry point for daily operations and navigation toward visitors, cards, devices, subscriptions and reports.
Visitors/Subscribers	Create, update, search and inspect visitor/subscriber records.
Cards	Assign cards, mark lost cards, return cards and manage access credentials.
Subscriptions	Renew, pause and recover individual or club subscriptions.
Configuration	Manage clubs, associations, time zones, devices and system parameters.
Reporting/Statistics	Generate operational reports and statistics for follow-up.

5. Technologies utilisees

C#

.NET Framework 4.8

WPF

SQL Server

MVVM

Crystal Reports

6. Travail en equipe / collaboration

Collaboration project: my work is presented as part of a larger professional codebase, with attention to existing modules, client workflow constraints and maintainability.

7. Captures d'ecran reelles

Authentication screen captured from the running desktop application.

Main dashboard with operational modules and navigation.

Card/subscriber management interface with reservation and return actions.

SOURCE-DERIVED INTERFACE INVENTORY

CAmatic Piscine Interface Catalog

Catalog generated from the WPF XAML views in the CAmatic Piscine source code. It documents the operational screens available in the desktop application.

60 interfaces/modules identified from code

INTERFACE	TYPE	MAIN FUNCTION
ACLs CAmatic.Piscine.UI.Views\ACLs.xaml	WPF view	Operational interface documented from the project source.
Add Device CAmatic.Piscine.UI.Views\AddDevice.xaml	WPF view	Operational interface documented from the project source.
Add Employee CAmatic.Piscine.UI.Views\AddEmployee.xaml	WPF view	Operational interface documented from the project source.
Add Tarifs CAmatic.Piscine.UI.Views\AddTarifs.xaml	WPF view	Operational interface documented from the project source.
Add User CAmatic.Piscine.UI.Views\Login\AddUser.xaml	WPF view	Operational interface documented from the project source.
Add Vip Card CAmatic.Piscine.UI.Views\Config\AddVipCard.xaml	Configuration view	Subscriber, card and membership operations.
Add Visitor CAmatic.Piscine.UI.Views\AddVisitor.xaml	WPF view	Subscriber, card and membership operations.
Alter Employee CAmatic.Piscine.UI.Views\AlterEmployee.xaml	WPF view	Operational interface documented from the project source.
Alter User CAmatic.Piscine.UI.Views\Login\AlterUser.xaml	WPF view	Operational interface documented from the project source.
Alter Visitor CAmatic.Piscine.UI.Views\AlterVisitor.xaml	WPF view	Subscriber, card and membership operations.
Association CAmatic.Piscine.UI.Views\Config\Association.xaml	Configuration view	Operational interface documented from the project source.
Associations CAmatic.Piscine.UI.Views\Config\Associations.xaml	Configuration view	Operational interface documented from the project source.
Card Lost CAmatic.Piscine.UI.Views\CardLost.xaml	WPF view	Subscriber, card and membership operations.
Card Preview Window CAmatic.Piscine.UI.Views\CardPreviewWindow.xaml	WPF view	Subscriber, card and membership operations.
Cards CAmatic.Piscine.UI.Views\Cards.xaml	WPF view	Subscriber, card and membership operations.
Categories CAmatic.Piscine.UI.Views\Config\Categories.xaml	Configuration view	Operational interface documented from the project source.
Category CAmatic.Piscine.UI.Views\Config\Category.xaml	Configuration view	Operational interface documented from the project source.
Club CAmatic.Piscine.UI.Views\Config\Club.xaml	Configuration view	Operational interface documented from the project source.
Clubs CAmatic.Piscine.UI.Views\Config\Clubs.xaml	Configuration view	Operational interface documented from the project source.
Devices CAmatic.Piscine.UI.Views\Devices.xaml	WPF view	Operational interface documented from the project source.
Employees CAmatic.Piscine.UI.Views\Employees.xaml	WPF view	Operational interface documented from the project source.
Entete Rapport CAmatic.Piscine.UI.Views\Config\EnteteRapport.xaml	Configuration view	Operational interface documented from the project source.
Entetes Rapports CAmatic.Piscine.UI.Views\Config\EntetesRapports.xaml	Configuration view	Operational interface documented from the project source.

Complete interface inventory generated from the WPF XAML views in the source code.
